Suite 330, 4676 Admiralty Way
Marina del Rey, CA 90292

Subject: Letter for support for DotHealth, LLC / .health

This letter is to confirm that Regulatory Harmonization Institute, Inc. fully supports the application for .health submitted to ICANN by DotHealth, LLC in the New gTLD Program. As the CEO, I confirm that I have the authority of Regulatory Harmonization Institute to be writing to you on this matter.

We have carefully reviewed how DotHealth, LLC intends to operate and manage the .health new gTLD registry, and we are highly supportive of the proposed policies and procedures that have been identified for the purposes of this application. In sharing a commitment to safety, information quality and trust, these policies and procedures are very consistent with the standards, policies and best practices that Regulatory Harmonization Institute already supports and advocates to our membership and key stakeholders.

Regulatory Harmonization Institute supports this application, and in doing so, understands that in the event that the application is successful, DotHealth, LLC will be required to enter into a Registry Agreement with ICANN and comply with consensus policies developed through the ICANN multi-stakeholder policy processes.

I can advise that in the event that this application is successful, Regulatory Harmonization Institute will enter into a separate agreement with DotHealth, LLC. This agreement will outline the conditions under which we support them in the operation of the .health TLD, and the circumstances under which we would withdraw that support.

Yours sincerely,

Joseph Carabello
CEO

RHI
Regulatory Harmonization Institute
