Dear Hein,

Thank you for your e-mails dated 29 February and 15 March 2012 and the background information on the .sport initiative.

We are pleased to confirm the AIOWF's general support of your initiative with a view for safeguarding the interests of the International Federations and creating new opportunities for the sports. However, please understand that we would like to discuss this project with our members in more details before taking any final decision, as we would need to better understand what role we would play on behalf of our members. We will therefore discuss this project at our next General Assembly in Quebec in May 2012.

Thank you for your initiative to examine this project on behalf of the International Federations. We look forward to further updates.

Yours sincerely,

AIOWF
