Contact Phone: +61.398663710

Relevant Policy Document URL: RFC 4713

The ZH-TW Language Table defines all the 19520 Chinese characters in Chinese character variant table for traditional Chinese domain name registration, and the registration guideline for Chinese domain name has been expressed as an IETF draft: Registration and Administration Guideline for Chinese Domain Names.

According to RFC3743, only the list of Valid Code Point in the ZH-TW Language Table is permitted for registration. If some Chinese character not included in the ZH-TW Language Table is required to be allowed as a new Valid Code Point, the ZH-TW Language Table will be modified and the new version of ZH-TW Language Table must be kept backward compatible with the old one.

Acknowledgements

Thanks for Li-Ming Tseng (Mail address: tsenglm@cc.ncu.edu.tw) who leading TWNIC Chinese Domain Name Variant Table Working Group to accomplish the language table.
