

Baiona, December 8th 2011

Dear Sir or Madam,

Euskal Konfederazioa is a non-for-profit association, created in 1995 under French jurisdiction. It gathers more than 20 associations and federations that work in favour of the Basque language in different fields [education, media, leisure, culture, etc.] and in favour of the development of the north part of the Basque Country.

According to its statutes, the main objective of *Euskal Konfederazioa* is to 'foster the development of the Basque language and culture'. That's why *Euskal Konfederazioa* joined the PuntuEus Foundation since its creation.

We strongly believe that .eus will be an effective tool to promote the creation of digital contents in Basque and digital contents about Basque culture on the Internet. Due to this reason, we ask ICANN to approve .eus in the first round that is going to be opened in January 2012.

Yours faithfully,

Mixel Oronos
Euskal Konfederazioa
