Harry McGrath
Chair
DotScot Registry
5 Blythswood Square
Glasgow
G2 4AD

19th March 2012

Dear Mr. McGrath

I am pleased to offer my wholehearted support for DotScot Registry's bid to obtain a new .scot domain which provides a clear online identity for Scottish interests and culture.

I know my fellow Ministers share my enthusiasm and like me, believe the not-for-profit model is the most appropriate for this type of community interest. The establishment of a new generic top-level domain of .scot will provide a tangible link between the people of Scotland at home and the members of the Scots Diaspora across the planet.

The new domain will be an important public resource benefiting a worldwide community of users.

Kind regards
Fiona Hyslop

FIONA HYSLOP
