Dear Harry,

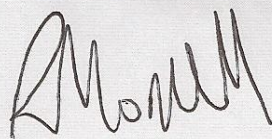

dotScot

I am pleased to offer our support for the proposed dotScot (gTLD) aimed at providing a clear identity for Scottish interests and culture on the web.

As you know, we have recently rebranded from Lumison to Pulsant. As Lumison we've been providing high quality IT infrastructure services to the mid-market since 1995. We now have 8 data centres in 5 different locations across the UK, and are one of the country's largest providers of Colocation, Cloud, Managed Hosting, Managed Networks, and Managed Application services with customers ranging from SMEs through to large private and public sector organisations. Most importantly, our customers know they can rely on us to provide IT solutions to help them meet their business goals.

We are particularly keen to see the dotScot Registry bid succeed and believe the not for profit model is appropriate for this type of community interest. Should you be successful in your application to ICANN we would be very interested in acquiring a dotScot domain ourselves, and promoting its availability to our members. Please do keep us informed of developments in this regard.

Yours sincerely,

Richard Morrell
Technical Director
