

Public Interest Registry Application for .ONG Response to Evaluation Question #20f

This document outlines the written endorsements for the application from established institutions representative of the community identified in 20(a), the “NGO Community”. We have submitted written endorsements by multiple institutions, relevant to the community.

During our community outreach, the NGO Community has provided written endorsements for our proposed gTLD and additionally an endorsement for PIR as the most appropriate organization to manage the gTLD.

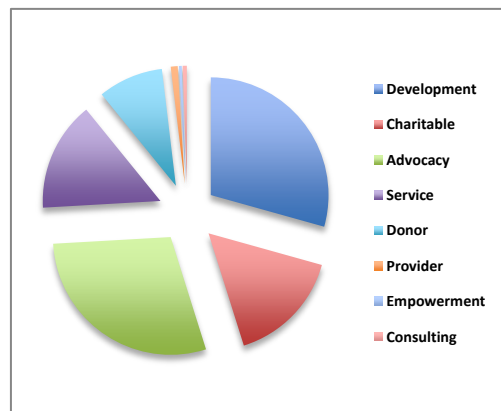

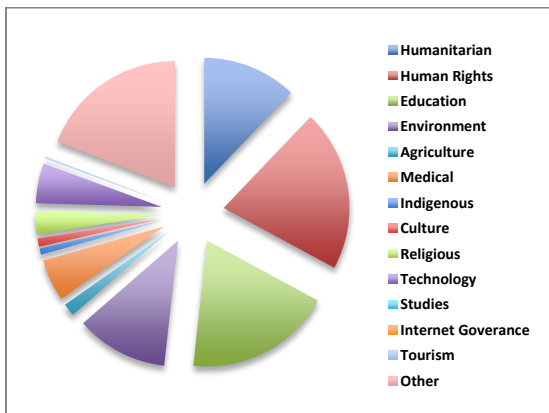

We have received over 700 letters of support for Public Interest Registry (PIR) to manage a new TLD for the NGO Community, including .NGO and .ONG. The letters are first summarized in a table, with the actual letters included as follows:

- Group A - Support letters as submitted via our website – due to the very compact formatting of these letters, they are included and follow in this document.
- Group B - Support letters received in hardcopy and have been scanned and are included across multiple attachments attachment. This group of support letters have been scanned four to a page in order to include the majority of letters while remaining within the ICANN TAS file size limitation for attachments.

Reprints of all support letters are available upon request of the gTLD application evaluators. See summary of all support letters in the content listing in the upcoming pages.

All Major Sectors of the NGO Community Represented in PIR’s Support Letters

Support letters have been received from all global regions. Also, an analysis of the complete list of support letters show support from all major NGO Community sectors, and represented in the diagrams below, from left to right (category and type).

Dear Sir/Madam:

Action Without Borders (dba Idealist.org) is a non- governmental organization (NGO) located in New York City. Idealist was founded in 1995 to help people around the world take action on issues that concern them. The site allows organizations to post jobs, events, internships, and volunteer opportunities, and individuals can sign up to receive free email alerts with new opportunities matching their interests and location. With more than one million registered users, and over 60,000 organizations from 180 countries, Idealist.org is the leading web site for people looking for ways to get involved in the world, and for organizations who want to connect with them.

Based on our positive experience – and that of many of our colleagues - with PIR's seamless management of the .ORG TLD over this past decade, Idealist fully supports PIR's application to ICANN to operate the .NGO Top Level Domain (TLD).

We strongly believe that both domains would benefit from being operated under the same roof, and we look forward to seeing this new TLD spread across the global NGO community.

Sincerely,

President and CEO
The Public Interest Registry

Dear Sir/Madam

Letter of Support for the PIR Initiative

Through this letter, I would like to indicate that Guyana Chapter of the Guyana-Mississippi Partnership of Partners of the Americas is ready to support, participate and work with PIR in your initiative.

We would like to commend you on this worthwhile initiative and at the same time to let you know that we stand committed and ready to be a part of it at any time.

We obtained a grant from IDB in December 2010 to engage youths and adults in hydroponic farming, self-empowerment skills, literacy and entrepreneurship among other skills. Although this project is in its final stages, may it please you to know that IDB was so pleased with the results that they have asked us to apply for a second phase to this project. As a result of this, we feel that networking with your organization augurs well for the future of this project since it would give the participants worldwide publicity.

Guyana Chapter of Partners of the Americas is therefore pleased to participate in this project. We can assure you of our total commitment to working with your staff and collaborators for its implementation.

Sincerely

Myrtle Richards

HERO, Healthcare Equipment Recycling Organization (Legal Name: Project HERO) is a non- governmental organization (NGO) located in Fargo, ND. HERO, Healthcare Equipment Recycling Organization (Legal Name: Project HERO) was founded in 1996. HERO collects and redistributes donated healthcare supplies to benefit those in need. (In our local and global community)

HERO is only located in Fargo,ND at this time, but we have given healthcare supplies to medical missions and other organizations who have been in over 40 countries.

HERO also provides supplies to those in Fargo, ND and Moorhead, MN and surrounding communities.

HERO began with a group of O.R. nurses who saw all the usable waste the hospitals were throwing away. They collected it and gave it to medical mission teams. We now serve our local population as well. HERO helps our environment and provides a new life for supplies and for our customers. All items have suggested handling fees, but those fees are waived for individuals who are unable to afford them. No one is turned away.

HERO has 3 full time and 1 part time employees and relies on volunteers and interns (as well as grants, individual donors, etc).

I'm looking forward to .NGO and believe it will help provide an accreditation to nonprofits.

HERO is in the process of re-branding our web presence and is looking forward to a new website. Just wishing .NGO was coming out sooner.

I believe PIR is doing a great job at providing .ORG and has the experience and enthusiasm to promote and run .NGO. Nuestra misión es: Promover las artes fotográficas en Chiapas, así como fortalecer las capacidades de los creadores locales.

Tenemos 57 miembros y actuamos en México.

Somos una organización no-gubernamental (ONG) y apoyamos plenamente la aplicación del Public Interest Registry (PIR), ante el Internet Corporation for Assigned Names and Numbers (ICANN), para operar el Dominio de Nivel Superior (Top Level Domain – TLD) .ONG/.NGO.

Reconocemos al PIR como una entidad sin fines de lucro, cuya operación del TLD .ONG/.NGO beneficiará positivamente a la comunidad de ONGs/NGOs.

SIDS and Kids is dedicated to saving the lives of babies and children during pregnancy, birth, infancy and childhood and supporting bereaved families. We deliver on our vision through world class research; evidence based education and bereavement support; and advocacy.

In Australia each year over 3,500 families experience the sudden and unexpected death of a baby or child, either through stillbirth or during the first month of life, from sudden unexpected death in infancy (SIDS or fatal sleeping accidents), SUDC (sudden unexpected death in childhood) or accident.

Sadly for many of these deaths there is no known cause. For example, more than half the deaths of unborn babies during the last 8 weeks of pregnancy each year are unexplained.

RE: LETTER OF SUPPORT

E COM WIGS is a non- governmental organization (NGO) located in Omaha, NE. E COM WIGS was founded in 2007. E COM WIGS operates in 2 countries. E COM WIGS fully supports Public Interest Registry's (PIR's) application to the Internet Corporation for Assigned Names and Numbers (ICANN) to operate the .NGO Top Level Domain (TLD). E COM WIGS recognizes PIR as a not-for-profit whose operation of the .NGO TLD will provide benefits to the NGO community.

E COM WIGS understands that PIR's proposed .NGO TLD will provide NGOs with a secure domain name and web-based services that will allow NGOs, wherever they are located, to be more intuitively accessible and to promote their respective missions online.

E COM WIGS encourages ICANN to grant PIR's .NGO application to bring these benefits to the global NGO community.
