Attention: New gTLD Evaluation Process, **Endorsement** for the .aco Top-Level Domain application by ACO Severin Ahlmann GmbH & Co. KG from ACO Polymer Products, Inc.

Ladies and Gentlemen,

ACO Polymer Products, Inc. introduced the concept of modular trench drains to North America over 30 years ago. Today ACO in North America is a multi-site manufacturing and sales operation using a variety of materials for its extensive range of drainage products for all aspects of building and construction.

After reviewing the plans of ACO Severin Ahlmann GmbH & Co. KG concerning its .aco top-level domain application at ICANN, we have the pleasure to announce that ACO Polymer Products, Inc. fully supports this initiative.

We confirm that the .aco top-level domain will contribute due to its verified domain names and security measures to more reliability, trust and credibility in communication between the ACO Severin Ahlmann GmbH & Co. KG, their customers, partners and internet users worldwide.

We understand that in the event that the application is successful, ACO Severin Ahlmann GmbH & Co. KG will enter into an agreement with ICANN. In doing so, the company will be required to comply with consensus policies developed through the ICANN multi-stakeholder policy processes.

We strongly encourage ICANN to grant the .aco TLD to ACO Severin Ahlmann GmbH & Co. KG. This will not only enable an innovative concept but may also have positive implications for other sectors of the economy.
