Attention: New gTLD Evaluation Process, Endorsement for the .aco Top-Level Domain application by ACO Severin Ahlmann GmbH & Co. KG from ACO Polycrete Pty Ltd.

Ladies and Gentlemen,

In the early 1970's, ACO pioneered the development of a modular approach to channel drainage systems made from durable polymer concrete.

Today, ACO Polycrete Pty Ltd offers an extensive portfolio of stormwater, building drainage systems; electrical pit and ducting systems; access covers and other products for niche applications.

After reviewing the plans of ACO Severin Ahlmann GmbH & Co. KG concerning its .aco top-level domain application at ICANN, we have the pleasure to announce that ACO Polycrete Pty Ltd fully supports this initiative.

A .aco top-level domain will make the content of the ACO community on the internet more intuitively accessible and will give customers, partners and internet users greater confidence.

We understand that in the event that the application is successful, ACO Severin Ahlmann GmbH & Co. KG will enter into an agreement with ICANN. In doing so, the company will be required to comply with consensus policies developed through the ICANN multi-stakeholder policy processes.

We strongly encourage ICANN to grant the .aco TLD to ACO Severin Ahlmann GmbH & Co. KG. This will not only enable an innovative concept but may also have positive implications for other sectors of the economy.

As the representative of our organisation I confirm that I have the authority to be writing to you on this matter. My contact details are:

ACO Polycrete Pty Ltd
Head Office: 134 - 140 Old Bathurst Road
Emu Plains NSW 2750
Australia
