Asia-Pacific Broadcasting Union (ABU)

14 March 2012

Mr. Steve Crocker
Chairman of the Board
Internet Corporation for Assigned Names and Numbers (ICANN)

Dear Mr. Crocker,

The Asia-Pacific Broadcasting Union (ABU) welcomes dot-radio, the Internet Top Level domain that the European Broadcasting Union (EBU) proposes to create for the worldwide radio community.

As a broadcasting Union representing broadcasters in the Asia-Pacific region, the ABU believes that the dot-radio proposal to be submitted by the EBU will provide added value for all radio broadcasters worldwide.

As a Union, we are involved in radio and television broadcasting that is moving to the Internet as an important means of distribution, so this will add-value to the radio's global community.

The use of a specific global online name such as dot-radio will help create a unique space worldwide where all the radio community of the world can gather.

In my capacity as Secretary-General of the ABU, I recommend that the dot-radio Top Level Domain proposal of the EBU be approved by ICANN.

We are looking forward to your favourable action on this request.

Sincerely,

Dr. Javad Mottaghi
Secretary-General

Date : **02 MARS 2012**

Ref. : **F 338 / 12**

M. Steve Crocker
Président du Conseil d'administration
Internet Corporation for Assigned Names and Numbers (ICANN)

Monsieur le Président,

L'ASBU accueille avec satisfaction « point-radio », le domaine Internet de premier niveau que l'UER propose de créer pour la communauté internationale de la radio.

En tant qu'union de radiodiffusion régionale représentant les radiodiffuseurs de la région arabe, nous sommes convaincus que le domaine « point -radio » proposé par l'UER apportera de la valeur ajoutée aux diffuseurs radio du monde entier.

Internet est en effet un moyen de distribution de plus en plus important pour les services radiophoniques et télévisuels que nous fournissons, qui apporte également une valeur ajoutée complémentaire à toute la communauté internationale de la radio.

L'utilisation d'un nom en ligne spécifique tel que « point-radio » contribuera à créer un espace unique, à l'échelon international, au sein duquel l'ensemble de la communauté radio pourra se réunir.

En ma qualité de Directeur général, je souhaite recommander à l'ICANN d'approuver le nom de domaine de premier niveau « point-radio » proposé par l'UER.

Je vous prie d'agréer, Monsieur le Président, l'expression de mes plus cordiales salutations.

Salaheddine MAADOU

From : Mr. Lawrence ATIASE
Chief Executive Officer
African Union of Broadcasting - AUB

Re : Application by EBU for a TLD to ICANN

Dear Mr. Crocker,

AUB welcomes dot-radio, the Internet Top Level domain that the EBU proposes to create for the worldwide radio community.

As the African Broadcasting union representing broadcasters in the African region involved in both radio and television, we believe that the dot-radio proposal to be submitted by the EBU will provide added value for all radio broadcasters worldwide.

The use of a specific global online name such as dot-radio will help create a unique space worldwide where all the radio community of the world can gather.

In my capacity as the CEO of AUB, I recommend that the dot-radio Top Level Domain proposal of the EBU be approved by ICANN.

Yours sincerely,

L. ATIASE

International Association of Broadcasting (IAB)

E/246/2012

Montevideo, 16 de marzo de 2012.

Mr. Steve Crocker
Chairman of the Board
Internet Corporation for Assigned Names and Numbers (ICANN)

Estimado Sr. Crocker:

La Asociación Internacional de Radiodifusión - AIR - acoge con satisfacción "punto.radio", el dominio Internet de nivel superior que la Unión Europea de Radiodifusión - UER- propone crear para la comunidad internacional de la radio.

Como unión de radiodifusión, integrada por Asociaciones, Cámaras y organizaciones de radiodifusión de las tres Américas, estamos convencidos que el dominio "punto.radio" propuesto por la UER proporcionará valor agregado a los organismos de radiodifusión a escala mundial.

Internet es un medio de difusión cada vez más importante para los servicios radiofónicos y televisivos que prestamos. Por lo tanto, consideramos que este dominio será de gran utilidad para la comunidad internacional de la radio.

La utilización de un nombre en línea específico como "punto.radio" ayudará a crear un espacio único a escala internacional en el que podrá congregarse la comunidad de la radio.

En mi calidad de Director General de la AIR, le hago llegar nuestra recomendación para que la propuesta de la UER de crear un dominio "punto.radio" de nivel superior sea aprobada por la ICANN.

Atentamente,

Dr. Héctor Oscar Amengual
Director General

Asociación Internacional de Radiodifusión - AIR

Mr. Steve Crocker
Chairman of the Board
Internet Corporation for Assigned Names and Numbers (ICANN)

Dear Mr. Crocker,

The North American Broadcasters Association (NABA) welcomes dot-radio, the Internet Top Level domain that the EBU proposes to create for the worldwide radio community.

As a Broadcasting Union representing broadcasters in the North American region, we believe that the dot-radio proposal to be submitted by the EBU will provide added value for all radio broadcasters worldwide.

As a Union, we are involved in radio and television broadcasting that is moving to the Internet as an important means of distribution, so this will add value to the radio global community.

The use of a specific global online name such as dot-radio will help create a unique space worldwide where the radio community can gather.

In my capacity as Secretary General, I recommend that the dot-radio Top Level Domain proposal of the EBU be approved by ICANN.

Sincerely,

John Harding
Secretary General, NABA

Organización de las Telecomunicaciones Iberoamericanas (OTI)

March 19, 2012.

Mr. Steve Crocker
Chairman of the Board
Internet Corporation for Assigned Names and Numbers (ICANN)

Dear Mr. Crocker:

OTI (Organización de las Telecomunicaciones Iberoamericanas) welcomes dot-radio, the Internet Top Level domain that the EBU proposes to create for the worldwide radio community.

As a Broadcasting Union representing broadcasters in the Ibero-american region, we believe that the dot-radio proposal to be submitted by the EBU will provide added value for all radio broadcasters worldwide.

Our Union is involved in radio and television broadcasting that is moving to the Internet as an important means of distribution, so this will add-value to the radio's global community.

The use of a specific global online name such as dot-radio will help create a unique space worldwide where all the radio community of the world can gather.

In my capacity as OTI CEO, I recommend that the dot-radio Top Level Domain proposal of the EBU be approved by ICANN.

Sincerely,

Miguel Diez de Urdanivia
OTI CEO
