Concerning

Letter of support

Dear President,

Radboud Reshape & Innovation Centre offers an enthusiastic support to Hexap in its will to administrate the **.med** extension in compliance with the ethical standards demanded by the medical field online.

We agree on this project's mission designed to create a new sphere of trust by ascribing these domain names exclusively to healthcare professionals and to implement a certification program to reassure users that the information on the site they're reading is trustworthy, including putting them in contact with a healthcare professional or healthcare company if they wish.

We believe that this innovative opportunity will open up a new namespace for the medical community that resonates worldwide.

Sincerely,

Mr L.J.L.P.G. (Lucien) Engelen,

Head of the Regional Acute Healthcare Network;  
Director REshape & Innovation Centre & Advisory to the Executive board
